LANDSCAPE METAL FACED A-FRAME

Description

The Metal-Faced Landscape A-Frame is a durable and economical sandwich board designed for high-impact outdoor promotions. Built for strength and daily use, it features two metal faces, making it ideal for retail, hospitality and high-traffic commercial environments where reliable performance matters.

Constructed from high-quality powder-coated steel, this A-frame is engineered for long-term durability in Australian conditions. The upgraded hinge system enhances stability and eliminates weak points, while the integrated top handle allows for easy positioning and manoeuvring. Pre-drilled panels simplify graphic installation, making it a practical solution for trade professionals.

Available in 600 x 900mm, 900 x 1200mm and 600 x 450mm sizes, this UV-stable and weather-resistant A-frame delivers a cost-effective and dependable display solution for outdoor advertising.
